Professional Summary

Junior Full-Stack .NET Developer with hands-on experience building and maintaining web applications using C#, ASP.NET MVC/Core, SQL Server, JavaScript, and Angular. Experienced in developing RESTful APIs, database design, and supporting scalable business applications in Agile environments. Familiar with modern AI-assisted development tools including Claude Code, Gemini, and GitHub Copilot. Passionate about clean code, problem solving, and continuous learning.

Technical Skills

- **Backend:** C#, ASP.NET MVC, ASP.NET Core, .NET, Web API
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, AngularJS, Angular 20
- **Database:** SQL Server, T-SQL, Stored Procedures
- **Tools & Platforms:** Git, Trello, GitHub Copilot, Claude Code, Gemini, Visual Studio, VS Code
- **Concepts & Practices:** REST APIs, OOP, Three-Tier Architecture, Agile/Scrum

Professional Experience

Acuative — Junior Full-Stack .NET Developer

Dec 2025 – May 2026 | Amman, Jordan

- Developed and maintained web applications using C#, ASP.NET MVC, Web API, and SQL Server.
- Worked on frontend features using HTML, CSS, JavaScript, Bootstrap, and Angular.
- Assisted in building RESTful APIs and backend services for internal business systems.
- Participated in debugging, testing, and application support.
- Collaborated with team members in Agile/Scrum development environments.

QTech Networks — Full-Stack .NET Developer (Part Time)

Sep 2021 – Jun 2024 | Amman, Jordan

- Built and maintained backend systems using C#, ASP.NET MVC/Web API, and SQL Server.
- Designed and optimized SQL queries and stored procedures.
- Developed RESTful APIs for frontend-backend integration.
- Worked with three-tier architecture and object-oriented programming principles.

- Collaborated with cross-functional teams in Agile development environments.

Clarity Debt Resolution — Payment Processor

Oct 2024 – Jan 2025

- Processed high-volume transactions with accuracy and compliance.
- Generated financial reports and resolved payment discrepancies.
- Maintained data consistency and streamlined reporting workflows.

Projects

PMS (Property Management System)

Developed features for a property rental and payment management system using .NET and SQL Server.

- Designed database tables and backend APIs.
- Applied three-tier architecture principles.

PDQA (Tourism & Seafood App)

Built backend services and database components using .NET Framework and SQL Server.

- Integrated external APIs for tourism and seafood-related data.
- Developed scalable backend logic and database structures.

Education

Bachelor's degree in management information systems (MIS)

Israa University | June 2025 (**Completed while working a part-time developer**)

Diploma in Web Development

Pioneers Academy | 2015 – 2016

Languages

- Arabic: Native
- English: Fluent

Soft Skills

- Problem Solving & Debugging
- Collaboration & Communication
- Time Management & Task Prioritization
- Adaptability & Continuous Learning

Availability

Available for remote and on-site opportunities.
